🎤 Personal quote

“If I already figured it out, I want to make it easier for others.”

📜 Biography

Marko Jovanović is a 23-year-old final-year university student in an urban environment. Motivated to make academic life easier for himself and others, he actively mentors junior students and seeks organized, tech-driven solutions to manage study materials and stay updated on university events. Despite a limited student budget, he is resourceful, tech-savvy, and driven to transition smoothly into his professional career.

Professional goals	Lifestyles
• Organize and centralize all study materials • Help junior students succeed more easily • Stay informed about relevant university and career events • Prepare for transition from university to professional career	• Balances studies with career preparation and networking • Actively participates in academic and career-related events • Uses cloud storage and online tools to manage materials • Engages with junior students through mentoring and support
Skills	**Challenges**
• **Tech Savvy:** 90% • **Research & Organization:** 85% • **Communication & Mentoring:** 80% • **Time Management:** 75%	• Wastes time sharing files individually • Repeats answers to the same questions from juniors • Difficulty keeping track of relevant events • Managing large amounts of study material efficiently

Thinks	Sees
• How can I organize all my materials better? • Can I give back by helping junior students? • How do I stay updated on university events relevant to me?	• Messy and unstructured cloud folders • Informal peer-to-peer file sharing • Posters and announcements scattered across campus
Feels	**Does**
• Satisfied when helping others with useful materials • Frustrated by answering the same questions repeatedly • Excited about career opportunities and events	• Uploads notes to cloud storage and shares links • Mentors junior students and answers their questions • Attends faculty events, workshops, and career fairs

Problem scenarios & solutions

1. **Inefficient File Sharing**	2. **Repeated Questions from Juniors**
• **Problem:** Study materials are spread across chats • **Current Alternative:** WhatsApp / Messenger groups • **Proposed Solution:** Centralized **Student Hub repository**	• **Problem:** Doesn't know what to focus on • **Current Alternative:** Asking older students • **Proposed Solution: Progress tracker** showing completed & pending topics
3. **Tracking Events**	4. **Time Management**
• **Problem:** Afraid to ask questions publicly • **Current Alternative:** Random forums or private messages • **Proposed Solution: Course-based forum** inside the platform	• **Problem:** Poor time management • **Current Alternative:** Juggling multiple deadlines using separate calendars, reminders, and sticky notes • **Proposed Solution:** Integrated calendar and deadline tracker within the platform, which automatically highlights upcoming assignments, exams, and events, allowing prioritization and reminders
